MORE STANDARD FEATURES THAN OTHER YURT MANUFACTURERS

- All our domes **OPEN** - the telescopic, stainless steel handle makes it easy to open and close for ventilation.
- Our domes are made of **industrial quality** polycarbonate - stronger than acrylic used by other companies
- **7 ft. is the standard height of side walls in all our yurts**
- Our exclusive, hand-sanded & stained pole rafters are stronger, and far more attractive than 2" x 4" rafters.
- Our snow & wind kit includes round Lodgepole studs, not 2" x 4"s. The poles are hand finished to match the pole rafters.
- We use all **stainless steel hardware** for a lifetime corrosion-free finish.
- Glass Windows are screened, double thermal glass with Low E soft coat film and Argon seal to prevent heat loss.
- VinaGARD® is UV protected, resistant to mildew, rot and fungus and flame retardant for the life of the fabric.

Standard features include: Canadian Douglas Fir side walls; a fireproof, insulated door; either a 5ft. or 6ft. diameter, industrial strength, opening dome complete with stainless steel opener and telescopic handle; wall covers and heavy duty-top covers of 19 oz. VinaGARD®; two windows, 48" x 40" horizontal, with insect screens; heavy duty commercial zippers on both sides of windows; removable, 20 mil. clear vinyl windows with extra zippers and velcro fasteners; aircraft quality steel cable; highest quality door hardware and lock set with extra keys. **The 32ft. model yurt comes with the extra large 6ft. opening dome.**
